

LifePharm Global Network Reference Document Updated 6-28-12

Please keep this document for future reference and pass it along to those you enroll.

How to Use Laminine: Saturation Dosage (recommended for Adults): When you first begin taking Laminine it is suggested that you saturate the body with this incredible formula. It essentially "jump-starts" the rejuvenation process.

To begin, take 2 capsules before breakfast and another 2 capsules in the evening before bed. If someone has either an afternoon slump or sleep challenges when taking Laminine at night, the second dose of 2 capsules can be taken in the afternoon instead of the evening. The two and two routine is followed for the first 14 days, followed by 1 capsule in the morning before breakfast and a second later in the day for the next two weeks. After the first month, take one or more per day according to your personal preference.

Laminine is best experienced on an empty stomach, including tea and coffee, medications and all other nutritional supplements you may be taking. Take Laminine with a full glass of water.

For Children: We recommend half the amount suggested for adults. If there are any concerns, be sure to consult your health care professional. If Child does not swallow capsules, open the capsule and add to yogurt.

For Pets: Laminine is great for pets. Open a capsule, put in their bowl or your hand and allow them to lap it up. Most animals like egg protein and will take a liking to it. You can also add it to another protein source.

Retracing/Detox: To understand this phenomenon, and other scientific info, listen to Dr. Chris Morris, ND at http://www.premierteam1.com/Scientific_Calls.html

Testimonials: www.EggOfLifeTestimonials.com & <http://www.youtube.com/watch?v=ebP6DiBqeM&feature=youtu.be>

Contacting Customer Support: If you have questions about any issue related to your account, contact Customer Service through the Support Ticket system at: www.lifepharmglobal-support.com or call from 8 am to 5pm PST at 800.400.1287.

How to Reorder: Go to <https://bo.lifepharmglobal.com/index.aspx> to login to your back office. Point at My Order > New Order. For Payment Type select Credit Card or eWallet (if you have funds in your eWallet sufficient to pay for the order). Complete the form. If the order is shipping to your address, click on "Same as Permanent Address". Enter the Quantity of what you wish to purchase then click on "Update" and then "Submit". Click "Submit" again and then enter Credit Card info. Click "Submit" and wait for confirmation. Click only once to avoid double charges.

Auto Delivery: Auto Delivery is not required; however, there are some advantages. First, is the convenience of not having to remember to reorder and never running out of Laminine. You can also be sure that you qualify to earn bonuses every week/month. The second advantage is that, when you are on Auto Delivery, you earn a Break Even Bonus. To enroll in Auto Delivery, follow above instructions for placing an order except you select Auto Delivery under the My Order tab. Follow the simple process for setting up Auto Delivery and be sure to select the date you want it to start. If you do not select a date, it will start on the day you set it up.

Sign Up Process: When people join at your LifePharm website they need to follow these instructions: Click on "Join" and then select "Enroll Now". There is no charge to join and they must buy at least the 3 pack to activate their account. You do not want people to select the Free Enrollment option when they are signing up as this just locks them into a position and they do not buy the product. Anyone who does this can buy the product later but it is always best for them to select the "Enroll Now" option.
